

## Schedule

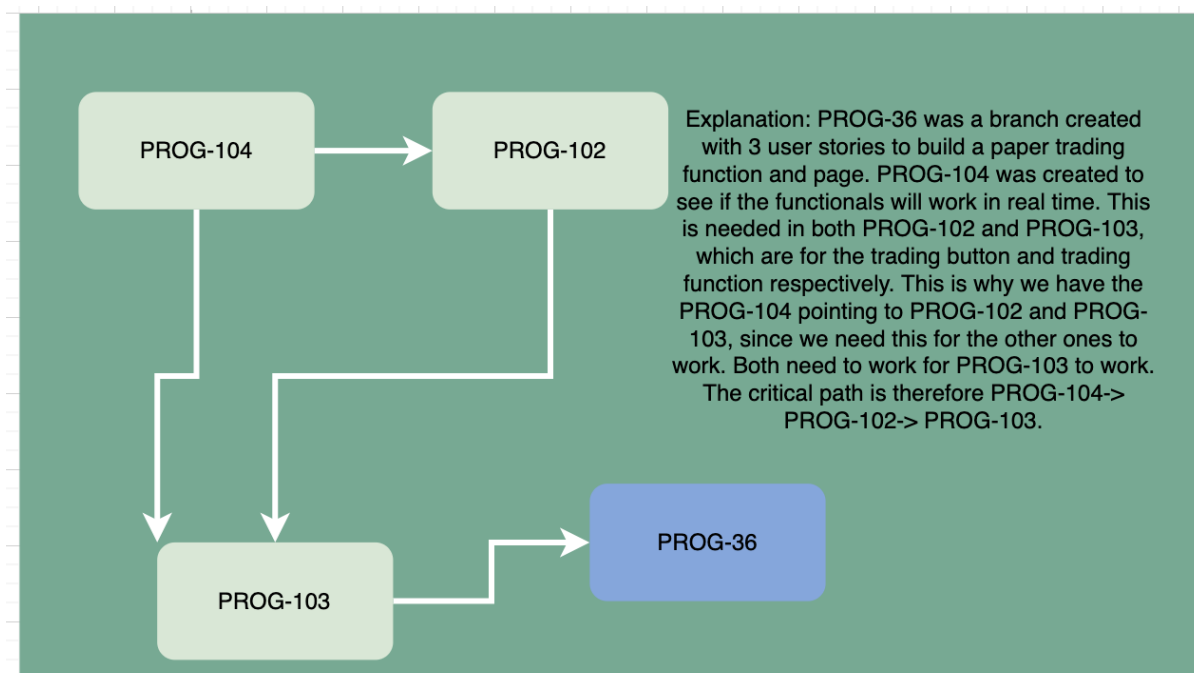

We hold stand-up meetings three times a week to track everyone's progress. Team members who complete the task will try to help other members who need help.

We finished PROG-38 PROG-30 PROG-39 PROG-36 PROG-24 in sprint3.

Explain what you do to keep your sprint on schedule:

- We were able to keep the sprint on schedule with daily scrum meetings and tracking tools like Jira.
- We made sure to get the functional parts of our app delivered first and quickly so that we did not take time away from other tasks.
